Subject: A proposal of association with FootPrints '16 as a sponsor

Respected Sir/Madam,

The students of the Faculty of Technology and Engineering of the Maharaja Sayajirao University, Vadodara organize FootPrints, a national level technical event annually. Commemorating its enigmatic journey of 15 years, FootPrints has now arrived at the threshold of its much awaited sixteenth year. Since its inception in 2001, FootPrints has been rendering a platform to technical minds all over the country. Our next edition, FootPrints X6 is scheduled on 19th, 20th and 21st of Feb 2016.

FootPrints has hosted an assortment of, working mechanisms and systems, a horde of cut-throat competitions, job procuring events, mind tickling workshops, scintillating seminars, paper presentations on topics pertaining to recent technical developments as well as non-technical issues and debonair concert nights and at the end of it, alluring rewards.

FootPrints is not only a technical event but also consists of a societal revolution. With this altruistic spirit and sense of responsibility, FootPrints SOCIAL RESPONSIBILITY, in its previous years, has adopted two villages Umarva and Shahpura and taken constructive measures for educational and social development.

FootPrints X5 witnessed a footfall of around 35k participants from all over India. Over the last two months of FootPrints X5, our website had 24.5 lakh hits from all over the world and over 95K Google hits.

FootPrints is a cradle of innovation and a confluence of acumen, fortitude and industry which helps a student towards his stride of technical prowess. Every year visionary students from every corner of India expand their horizons, giving impetus to their diligent innovations and inventive visions. For us to continue enriching our society with technical brilliance we need a constant benefaction of our sponsors. We genuinely hope to receive your patronage for the empowerment of the young and aspiring India.

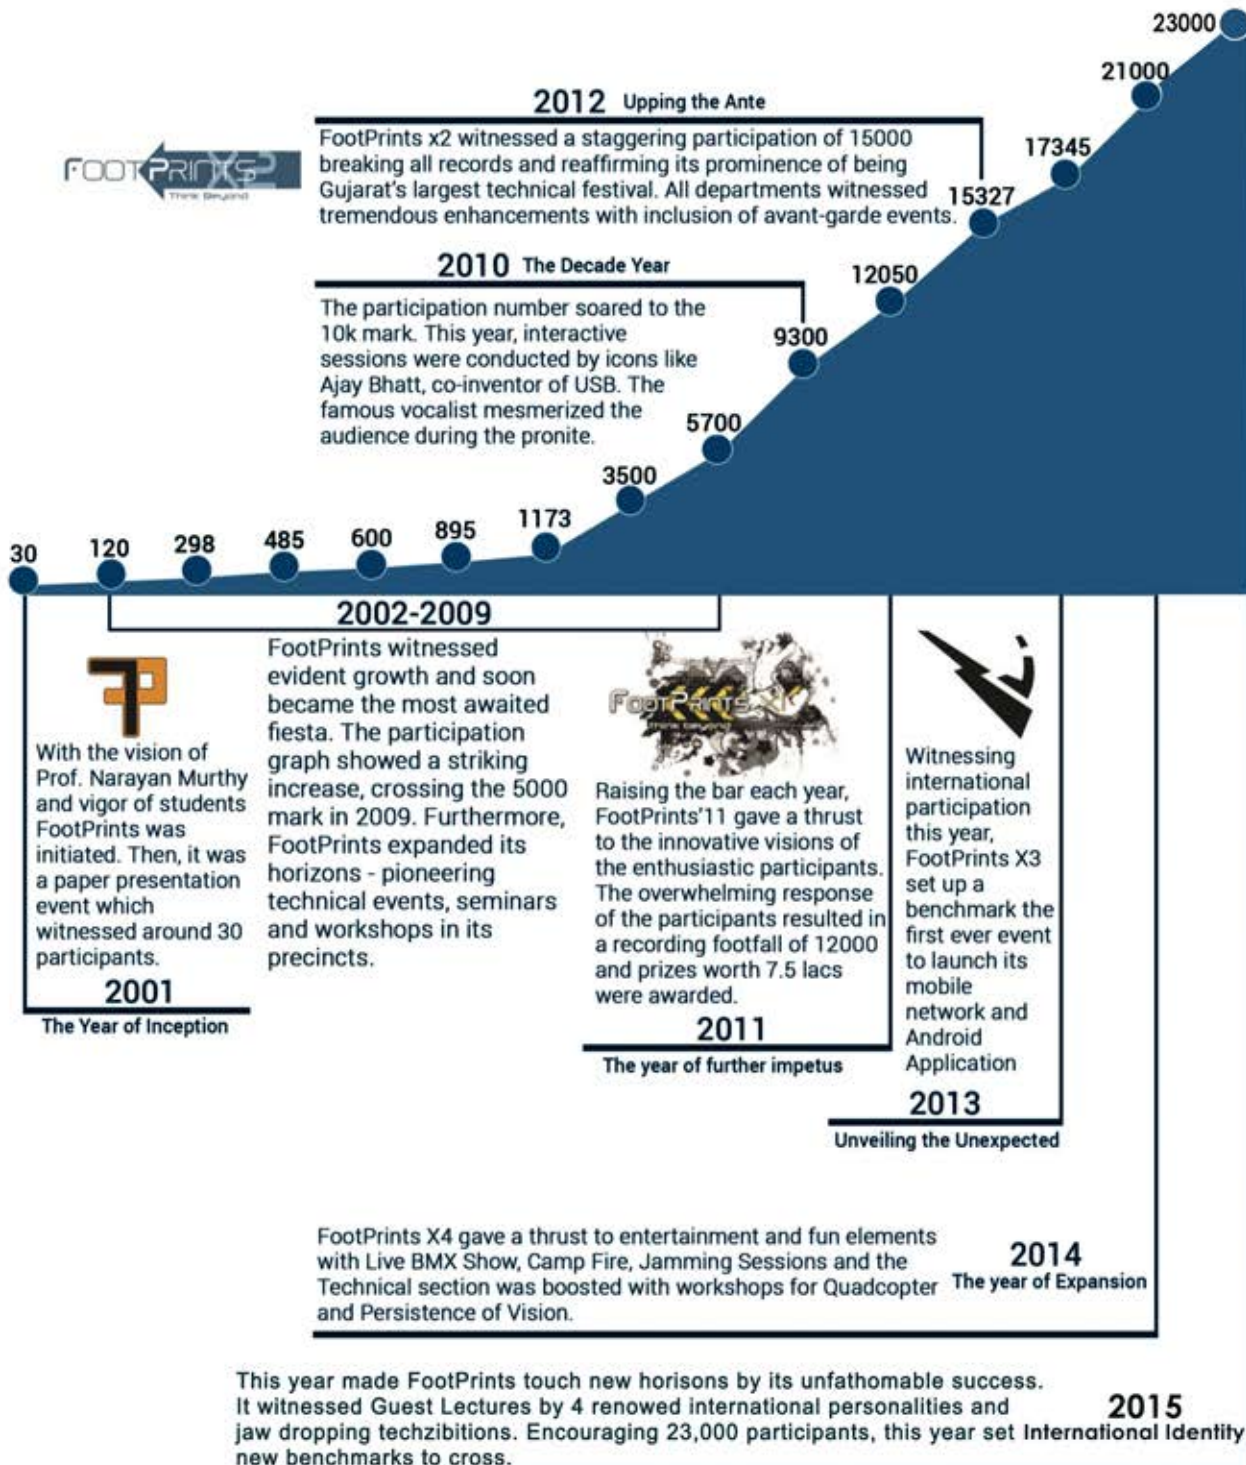

Prof. (Dr.) A. N. Misra

Dean, Faculty of Tech. & Engg.

World Record of the Largest Paper Bag

Under the segment of FootPrints Social Responsibility the students attempted a world record for making the world's largest paper bag on January 12th, 2014 under their **"Say No to Plastic"** campaign. The students successfully made a bag which measured 18.55 metres high, 11.33 metres wide and 2.94 metres deep and has been acknowledged by the **Limca Book of Records** and **Guinness World Records**.

The main motive behind breaking the record was to spread awareness among the commoners to minimize the use of plastic bags and opt for the more environment friendly paper bags.

CERTIFICATE

The largest shopping bag made from paper is 18.55 m long, 11.33 m wide and 2.94 m deep, which was achieved by Footprints X4 and Pastiwala.com and measured at the Maharaja Sayajirao University of Baroda, Gujarat, India, on 12 January 2014
